REMARKS

This application has been carefully reviewed in light of the Office Action dated October 4, 2005. The Examiner allowed Claims 1-11 and the application is in condition for allowance except for several formal matters as outlined by the Examiner.

On the merits, the Office Action objected to the Oath/Declaration because the specification to which the Oath/Declaration is directed has not been adequately identified. The Examiner requested that Applicant check the appropriate box to identify the specification. Applicant has included with this Response to Office Action a Declaration properly identifying the specification.

The Examiner also objected to Figure 2 as not including a reference numeral 11 when page 6, line 11 of Applicant's specification refers to reference numeral 11. Applicant has included one replacement drawing sheet with a Figure 2 including a reference numeral 11.

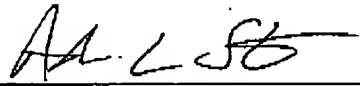

The Examiner further objected to the disclosure because the specification fails to disclose section headings including Background, Summary of the Invention, Brief Description of the Drawings, and Detailed Description of the Invention. In response to the Examiner's objection to the specification for failing to provide header sections, Applicant gratefully acknowledges the suggestion, but respectfully declines to add the headings as they are guidelines and not required in accordance with MPEP §608.01(a).

Applicant appreciates the Examiner allowing Claims 1-11 and the notification of the informalities in Applicant's patent application. Applicant has addressed all the formal matters presented by the Examiner and now believes this patent application to be in position for allowance.

In view of the foregoing amendments and remarks, Applicant respectfully submits that the currently pending claims are clearly patentably distinguishable over the cited and applied

references. Accordingly, entry of this amendment, reconsideration of the rejections of the claims over the references cited, and allowance of this application is earnestly solicited.

Respectfully submitted,
